ALESSI

GIFT & INCENTIVES

Certain objects are a part of our daily existence and can define the domestic scenario where we arrange our lives when we are at our most intimate or when we have guests. There are objects that make the small, everyday gestures easier, more pleasant and more "ours". We express our style and our essence through them, and we satisfy our desires. The objects from the Alessi Dream Factory are designed precisely to make us happy when we buy them for ourselves and to make others happy when they receive them as a gift.
