Catalogue 2020

Zanette, day atmospheres

ZANETTE

Zanette, atmosfere diurne

Modernità, trasversalità, unicità: le collezioni Zanette esprimono i valori che da oltre cinquant'anni guidano l'attività dell'azienda, insediata nel cuore produttivo del Nordest italiano. Moderna è la visione e l'aspirazione di Zanette: dare forma ad arredi sofisticati, capaci di definire linee senza tempo e di incarnare gli stili di vita contemporanei. La cura scrupolosa del dettaglio progettuale – tecnico ed estetico –, l'industrializzazione dei processi e la qualità artigianale delle lavorazioni si traducono in prodotti affidabili e funzionali, sviluppati secondo una rigorosa politica di rispetto ambientale, grazie a procedure certificate che abbracciano ogni aspetto, dalla selezione dei materiali ai trattamenti, all'imballo.

Trasversalità è il filo rosso che percorre le collezioni Zanette. Sistemi componibili, elementi singoli e complementi sono pensati per costruire atmosfere coerenti nelle zone giorno e notte e interpretare con libertà ogni ambiente. Le continuità e i contrasti cromatici e materici, la proporzione geometrica delle forme, la dinamica dei pieni e vuoti permettono di organizzare scenografie accoglienti ed eleganti, in cui abitare e riconoscersi. Unica è la qualità che il design Zanette conferisce a ogni spazio. La ricchezza e la personalizzazione delle finiture consentono di realizzare composizioni esclusive e di rispondere a ogni esigenza, sia nel residenziale sia nel contract.

Zanette, day atmospheres

Modernity, flexibility, uniqueness – Zanette's collections encompass the values that have guided our business for over fifty years, here in the productive heart of north-eastern Italy. Modernity of vision and aspiration: creating sophisticated furnishings, with timeless lines, able to personify contemporary lifestyles. The painstaking care over design details - technical and aesthetic - the industrialisation of processes and the artisan quality of workmanship result in products that are reliable and functional, created according to a strict policy of environmental respect, thanks to certified procedures that cover every aspect, from choice of materials to finishes and packaging.

Flexibility is the recurrent theme of Zanette's collections. Modular systems, single elements and accessories are designed to create coherence of atmosphere in the day and night areas and to interpret all rooms in total freedom. Continuity and contrasting colours and textures, the geometric proportion of the shapes, the dynamics of the full and empty spaces make it possible to arrange welcoming, elegant settings in which to live and be oneself. Unique is the quality that design by Zanette brings to every space. The rich, customised finishes allow for exclusive arrangements, suitable for all requirements, whether residential or contract.

260 Complementary furniture

Rosa è il tema che unisce l’alba e il tramonto, è la trama morbida di un tessuto, la venatura tenera del marmo. Gli arredi emergono dal fondo come pennellate di colore, costruendo una scenografia poetica e confortevole.

Pink is the theme that unites dawn and dusk. It is the soft weave of a fabric, the tender veining of marble. The furnishings are like brushstrokes of colour against the background, creating a poetic, comfortable setting.

Tortora è la tonalità pacata di un pomeriggio assorto, la luce soffusa del cielo che muta con il trascorrere delle ore, la pausa di un raggio di sole sulla parete. Superfici opache e trasparenti, sovrapposizioni, intersezioni e riflessi tracciano armoniosi volumi nello spazio.

Turtledove grey is the calm tone of a pensive afternoon, the soft light of the sky, changing hour by hour, sunlight resting upon a wall. Opaque and transparent surfaces, overlays, intersections and reflections draw harmonious volumes in space.

Casablanca, Icaro

Antracite è la roccia profonda, la solidità di una rigorosa geometria. Nell’intimità della caverna si spande l’eco di una calma saggezza, palpitante di ricordi e contrasti – caldo e freddo, chiaro e scuro, naturale e artificiale.

Anthracite is deep rock, the solidity of severe geometry. The intimacy of the cave echoes with quiet wisdom, pulsating with memories and contrasts - hot and cold, light and dark, natural and artificial.

Bianco è assenza e presenza assolute, il colore in cui ogni cosa prende forma e si riverbera. È lo spazio dei sogni, di ciò che inizia e dura nel tempo. Come in una galleria, la purezza classica incontra il linguaggio astratto dell'arte moderna e la precisione del design contemporaneo.

White is total absence and total presence – the colour in which everything takes shape and reverberates. It is the space of dreams, of what begins and lasts throughout time. As in a gallery, its classic purity encounters the abstract language of modern art and the precision of contemporary design.

Modulares System Moove

Comporre e contenere: il sistema modulare Moove progettato da Adriano Castiglioni realizza uno dei principi cardine del design moderno. I diversi volumi delle basi e dei pensili arredano con versatilità l'ambiente giorno, creando un gioco di pieni e vuoti che risolve molteplici funzioni sia negli spazi aperti sia in quelli di piccole dimensioni. Gli elementi del sistema sono disponibili in essenza rovere termocotto e in 23 colori laccati opaco, le basi sono personalizzabili con piani top in vetro o in HPL. Ante vetro trasparenti o fumè con telaio in alluminio finitura antracite completano la proposta decorativa.

Arranging and containing: the Moove modular system designed by Adriano Castiglioni achieves one of the main principles of modern design. The various base and wall unit volumes furnish the living room in a versatile way, creating a game of solids and voids that serves many functions both in expansive, open and small spaces. The elements featured by this system are available in heat-treated oak wood and in 23 matt lacquer colours while the base units can be customised with glass or HPL tops. Transparent or smoky glass doors with anthracite finish aluminium frames complete the decorative options available.

Sistema modulare Lei
Lei modular system
Sistema modular Lei
Système modulaire Lei
Modulares System Lei

Lei, ovvero semplicità, leggerezza, funzionalità, eleganza. Francesc Rifè, designer spagnolo da sempre attento alla qualità dei materiali, all'ordine spaziale e alle proporzioni geometriche, ha concepito un sistema modulare che racchiude i valori chiave della produzione Zanette. Gli elementi a parete e la versione madia componibile sono disponibili in tre essenze (rovere carbone, rovere naturale, rovere Siena), e in 23 opzioni di laccatura, permettendo grande libertà di arredamento e personalizzazione. La cura sartoriale dei dettagli – come la maniglia direttamente ricavata nell'anta – assicurano massima facilità d'uso. Il minimalismo di Lei si completa nei sofisticati arredi progettati sempre da Rifè: il tavolo da pranzo e il tavolino circolare Bite, impreziositi dalla gamba che "morde" il piano del tavolo, e le comode e avvolgenti sedie e poltrone Hood, da abbinare agli omonimi tavolini.

Lei stands for simplicity, lightness, functionality and elegance. Francesc Rilè - a Spanish designer who has always focused on the quality of materials, on the position of furniture in space and on geometric proportions - has created a new modular system that encompasses the key values of Zanette's production. The wall units and the modular sideboard are available in three wood finishes (coal oak, natural oak and Siena oak) and in 23 lacquer options for great furnishing and customisation freedom. Painstaking care to detail – as is apparent from the handle carved out of the door edge – result in utmost ease of use. Lei's minimalism is also completed by sophisticated occasional furniture designed by Rifè: the dining table and the round Bite coffee table are beautified by legs that "bite" the tabletop while the comfortable, wraparound Hood chairs and armchairs are designed to pair with the coffee tables with the same name.

Versatilità ed equilibrio sono al cuore del design Zanette. Accanto alle famiglie e ai sistemi modulari, l’azienda propone numerosi complementi – madie, pouf, pensili a giorno, tavoli, sedie – consentendo di realizzare arredi integrati e altamente personalizzati.

Versatility and balance are at the core of Zanette’s design. As well as its modular lines and systems, the company offers lots of complementary furniture such as sideboards, poufs, open wall units, tables and chairs with which integrated and very customised furnishing solutions can be created.
